

# Kontinuerlig Monitoring av Fremtidsscenarioer

[asistobe.com](http://asistobe.com)

## Jostein Haaken

Head of Consulting Asistobe

---

*"If you don't know the demand, how can you optimize the supply?"*

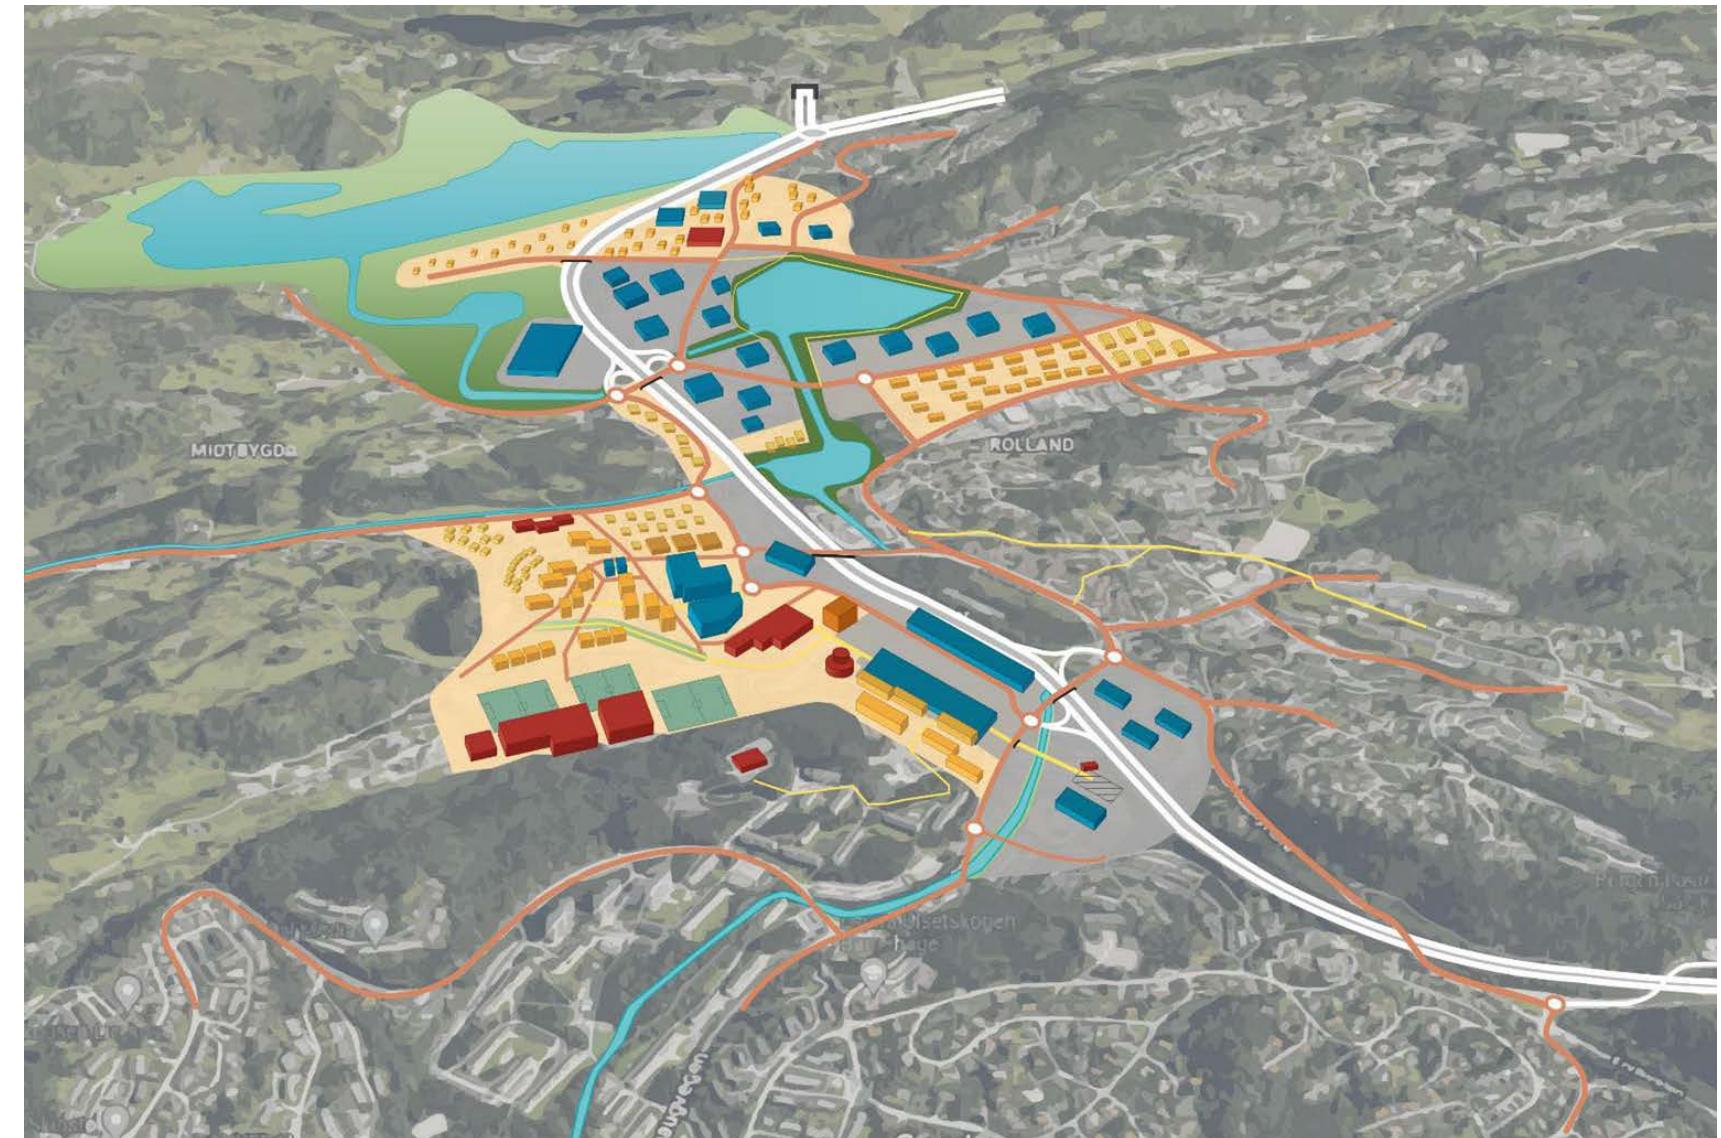

## SPP Åsane

- Gå by med samlet sykkelvei system
- Sentrum ; møtesteder, attraktive torg, byrom, bilfrie områder og parker, inkludert sammenhengende blå grønn struktur
- Gode og attraktive bobiljø med sosial bærekraft
- Overordnet plangrep for kollektiv- og vegsystem
- Identifisere fortettingsområder og legge føringer

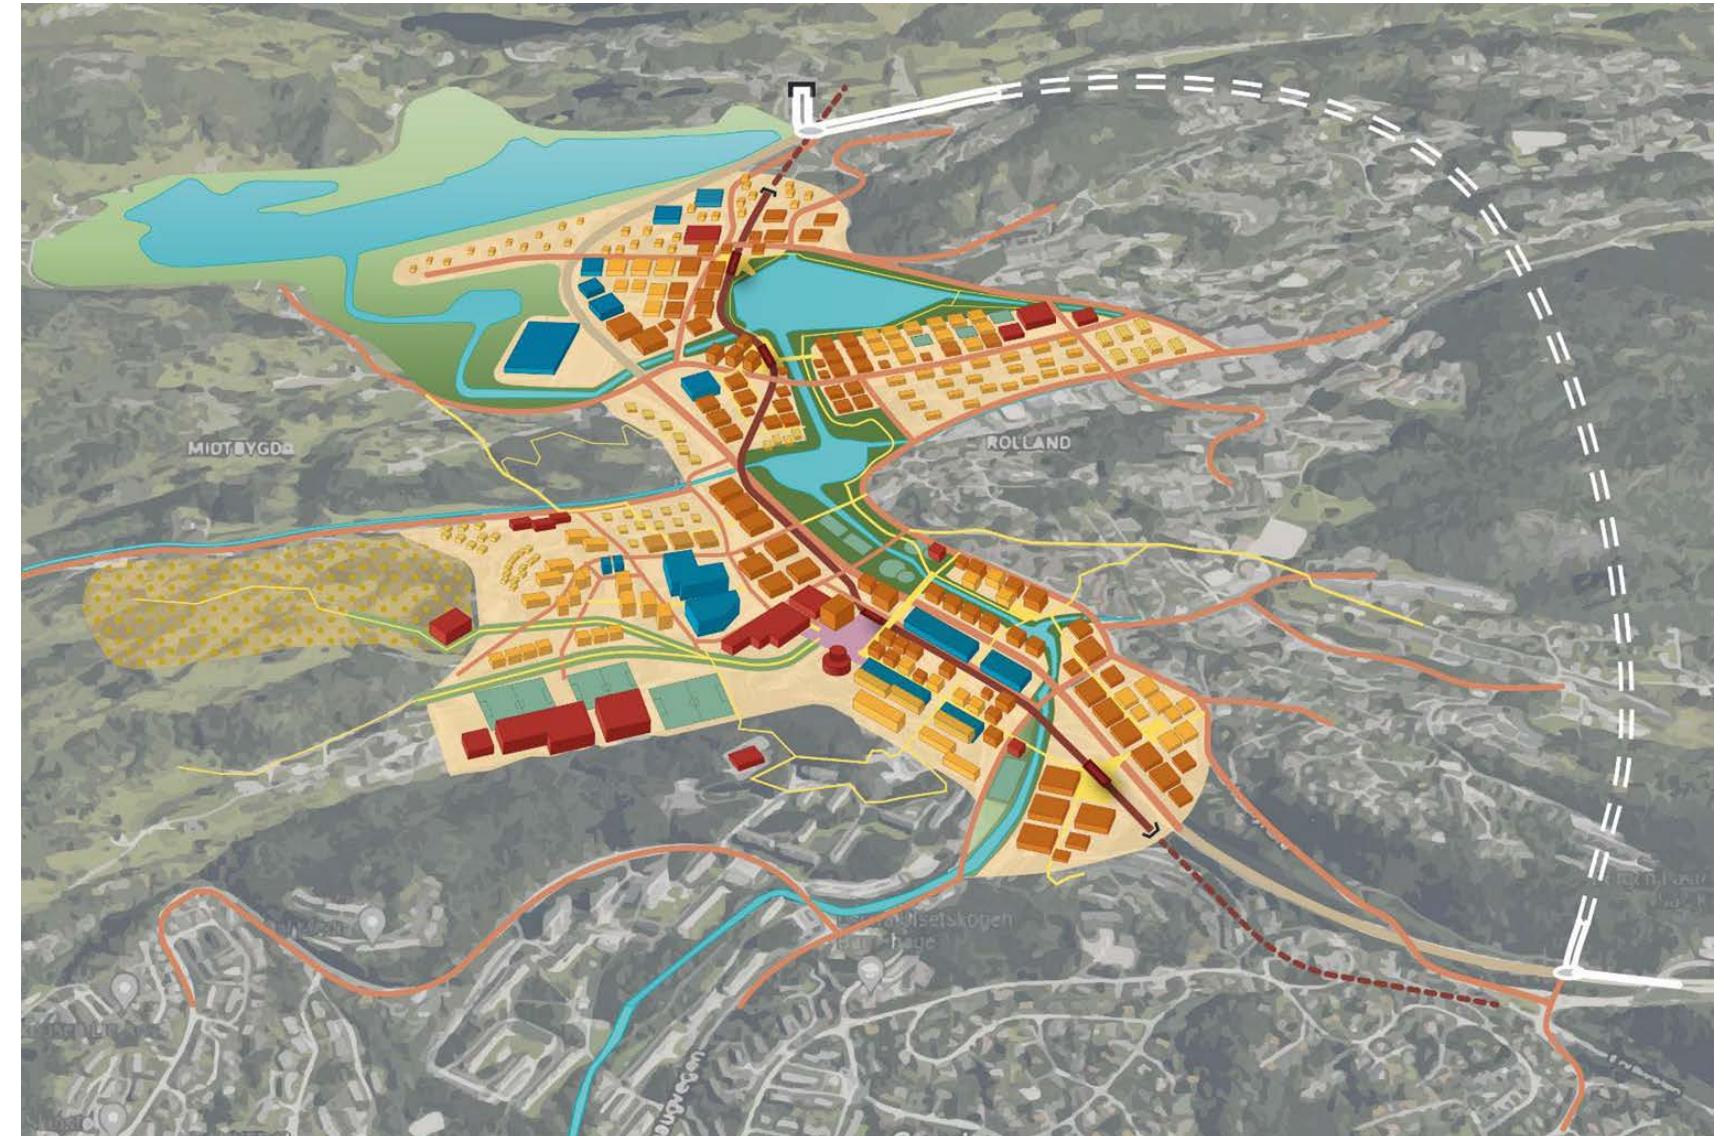

# Åsane I dag

- Parkeringsplasser
- Byggevarehus
- Kjøpesenter
- Motorvei

# Åsane I2050

- Blandet bebyggelse
- Bybane
- Gangveier
- Parker
- Kontorer
- Motorveien fjernet

## Åsane 2050

Hva betyr det for  
mobiliteten?

- Hvor mange boliger blir det?
- Hvor mange arbeidsplasser?
- Hvordan vil innbyggernes reisehverdag bli?
  
- Hvordan adresserer vi usikkerheten i arbeidet?

# As istobe Business Case Approach

## Explore

### 1) Identify inefficiencies in the network

#### Current passenger distribution trends

- Over and under capacity
- Passenger impact
- Cost

## Optimize

### 2) Generate a prognosis

#### Future passenger distributions

- Overall adjustments
- Special events

### 3) Optimize network

#### Optimize on the basis of prognosis

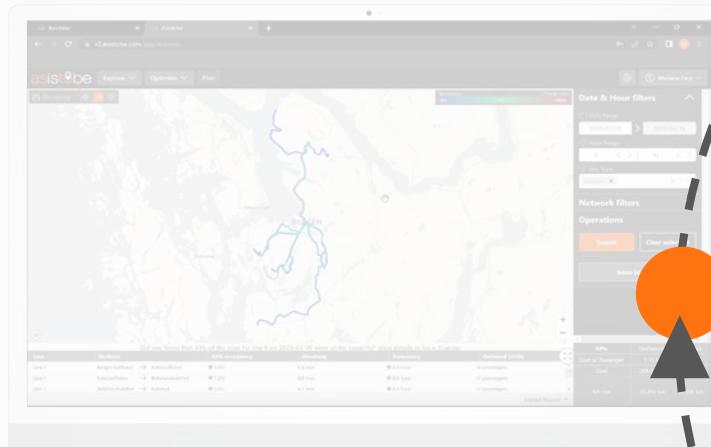

- Segmentation
- Headways

**Measure** quantifiable effects of optimizing on the basis of prognosis

- Passenger distributions
- Kilometers driven
- Total cost
- Cost per pax

# Asistobe cloud-based AI platform

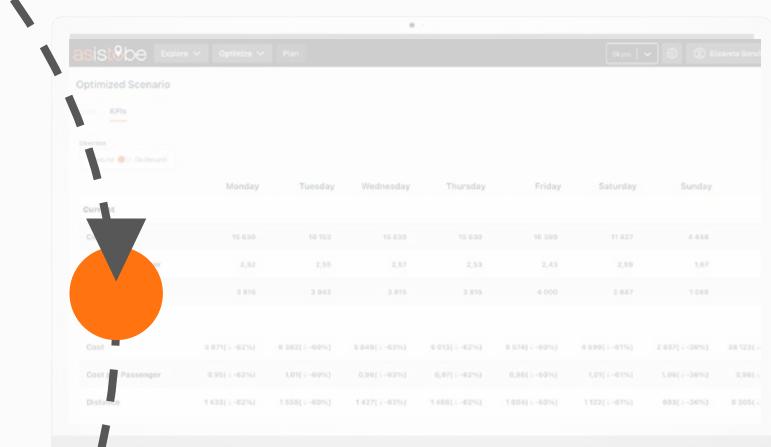

Explore
